

TECHNICAL DATA SHEET

SANO XP

NATURAL OIL FOR WOOD FLOORS

DESCRIPTION:

MC Chroma SANO XP is a natural oil safe for health which colors and protects wood in one single coat.

PRODUCT	MC CHROMA SANO XP
SIZE	860 ml
CODE	
UNITS / PACK	10

FEATURES:

- Prevents from decoloration
- Colors and protects wood in one single coat
- Solvent free, VOC free, 100% solids content
- Waterproofs wood surfaces
- Great resistance to abrasion
- Available in 12 colors
- Exceptional covering power
- Does not create a film over wood surface

RECOMMENDED USE:

- For wood and cork floors.
- For kitchen counters and cabinets.
- To protect wooden furniture.

RECOMMENDED APPLICATORS:

- Lamb skin
- MC Abrasif special pad (green)

PREPARATION:

Bring the surface to bare wood. Equalize the final sanding with a buffer and a 100 grit paper. Use the MC Abrasif UNIQUE disks for an optimal result. Clean the surface with a vacuum cleaner before applying Sano XP.

It's possible to mix colors. To decrease color intensity, it's possible to mix the colored Sano XP with the natural Sano XP.

Always test the product before applying on oil or stain or before being recovered by oil, varnish or wax.

CATALYST (FOR PROFESSIONAL ONLY):

At the moment of applying the oil, add Sano XP catalyst in a 10:1 ratio and stir well during 1 minute to assure the homogeneity of the product.

APPLICATION:

With the recommended applicator, apply the product on all the surface to cover while respecting the coverage. Let penetrate the product into the wood during 20 minutes. With a buffer and the special pads, equalize the color while removing the excess of oil. Make sure not to leave accumulation of product on the surface.

RECOATING:

Clean the surface with EXP Surfaces cleaner following the recommendation. With the recommended applicator, apply the product on all the surface to cover while respecting the coverage. Let penetrate the product into the wood during 20 minutes. With a buffer and the special pads, equalized the color while removing the excess of oil. Make sure not to leave accumulation of product on the surface.

MAINTENANCE:

Wait 20 days before the first wet cleaning. For regular, weekly care, clean with EXP Surfaces cleaner or any soap made from natural oils. Avoid solvent based soaps or any product which contains abrasives.

PRODUCT PROPERTIES:
